knowledge society

# Our Story

Knowledge E was founded in 2012 in Dubai, at the centre of a region of vision and ambition. Soon Knowledge E became into a name synonymous with collaboration, innovation and progression in research, education and publishing throughout the Middle East. Having over 70 clients across the region, ranging from national provisions, ministries and government bodies, to the region's many universities, is a testament to the professional capabilities we strive to provide.

Since our inception, we have prudently expanded our expertise, services and technology in line with our vision of developing a more knowledgeable world. With this in mind we have launched several successful services focusing on capacity building training, a new publishing platform, consultancy services to institutions trying to improve their research performance and a new flagship product enabling enhanced discovery, collaboration possibilities and analytical tools that will serve the global research community.

## Our Vision

*A more knowledgeable world*

## Our Mission

*To work at the heart of the knowledge industry building scholarly and research capacity through content, innovative coaching and the use of technology*

## Our Values

*Trust and responsibility  
Collaboration  
Outstanding service*

# Timeline

# CEO Message

“

We embarked on an unknown journey in 2012 equipped with our ideas, values and plans to serve the community we were working in. Five years later we are a team of 24 professionals providing content, technology, services and solutions to a wide range of clients from around the world. We couldn't have made it so far without the trust and collaboration of our clients and partners, and the energy and professionalism of our team. We will continue to do our best to deliver outstanding services and products, and to collaboratively innovate new ways in which we can all move towards "a more knowledgeable world".

Kamran R. Kardan  
CEO and Founder

## 'Year of giving'

In light of the UAE's 2017 "Year of Giving", Knowledge E has teamed up with Dubai Cares to adopt a school in Malawi.

"We feel very excited and passionate about this partnership with Dubai Cares. We believe that schools are one of the cornerstones of education, and this project will certainly create a positive and lasting change in the lives of children and young people in Malawi. As part of Knowledge E's CSR policy, we are committed to supporting such noble cause by building a school in this Eastern African nation, and we will continue our endeavor to bring positive change to the lives of underprivileged communities in other parts of the world".

Develop

# Our Services

## Discover

We help institutions 'Discover' by providing content from the world's top publishing houses while enabling smooth and reliable access and discoverability through our technology platform and services.

## Develop

We 'Develop' the community by bringing international experts to provide hands-on capacity building workshops and specialised trainings developing high performing individuals and institutions. We also provide consultancy services serving universities on their mission to become 'world class universities'

## Disseminate

We help the research community 'Disseminate' content through our open access publishing platform covering both conference proceedings and journals so that they can share their findings with the rest of the globe.
