

Develop

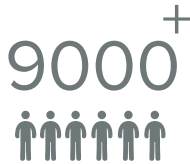

KnE Learning Programmes

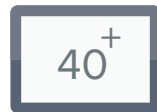

The place for expert training solutions

KnE Learning Programmes

Knowledge E approaches each project with the mindset of a strategic solutions partner rather than simply providing training. We foster a dedication to quality, human capital development, and sustainability as we leverage our domain expertise, expansive industry network, and dedication to innovation to best serve our clients in helping them maximise results and achieve their goals.

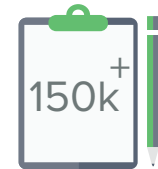

Individual learners have attended our courses

Deliver practical learning outcomes

Foster sustainability & self-sufficiency

Drive innovation & creativity

Ensure quality & relevance to maximize ROI

Practice proactive & agile operations

Training Topics

Each of our bespoke programs are tailored to suit the exact needs of our clients. Our most popular topics include:

What our clients say

“I would like to thank you and express my deepest gratitude and appreciation for the tremendous effort you have done for us during the workshops in May 2018 and for giving us all this unique opportunity to enhance our teaching skills.”

Dr. Muhammad Saeed Hussein Gomaa
(Attendee of the 'Teaching Excellence in Medical Education' program)
Professor of internal medicine
and gastroenterology
October 6 University

Discover

KnE Digital Library Solutions

We help institutions 'Discover' by providing content from the world's top publishing houses while enabling smooth and reliable access and discoverability through our technology platform and services.

Develop

KnE Learning Programmes | KnE Consulting Projects

We 'Develop' the community by delivering bespoke training programmes designed to foster high performing knowledge societies. We also provide consultancy services serving universities on their mission to become 'world-class universities'.

Disseminate

KnE Publishing Services

We support the research community to 'Disseminate' content through our Open Access platform publishing journals and conference proceedings, enabling them to share their findings with the rest of the globe.
