

Welcome to IOP Publishing

150 years of publishing

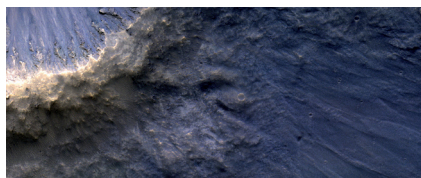

IOP Publishing's portfolio includes more than 70 journals, around half of which are published jointly with or on behalf of partner societies and research organisations. Our portfolio reflects the growth of scientific research and application in core scientific fields, while recognising its increasingly interdisciplinary nature.

Libraries are at the centre of the scientific, technical and medical research community, and we want to work with you to help make relevant research discoverable and available when and where it is needed.

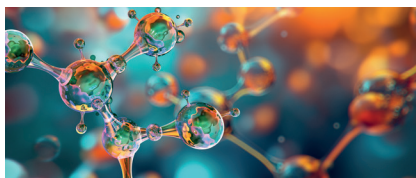

Our subject portfolios have been developed with the research communities we serve to support the latest development in growing and emerging fields of essential research.

Subject portfolios

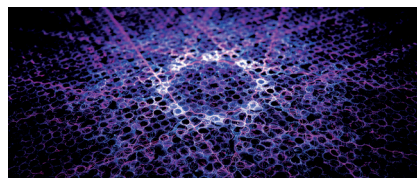

Discover the latest research published in subject areas that matter to your institution from across our portfolio of leading journals, an award-winning ebook programme, conference proceedings and expert science journalism.

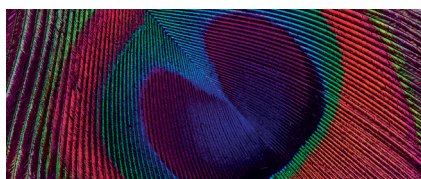

Astronomy and astrophysics

Atomic and molecular physics

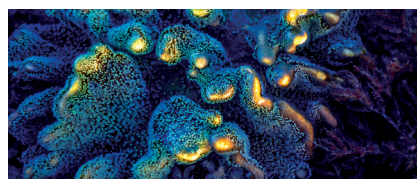

Condensed matter

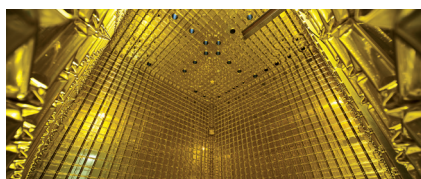

Education

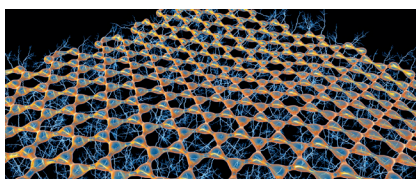

Engineering

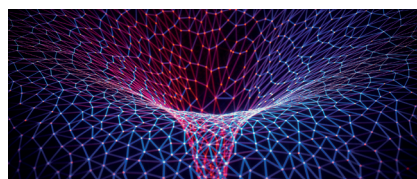

Environment and energy

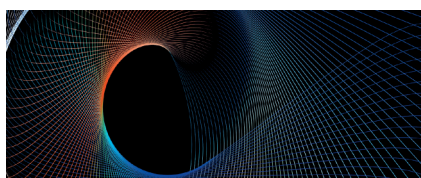

Instrumentation and measurement

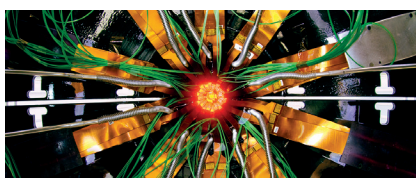

Materials

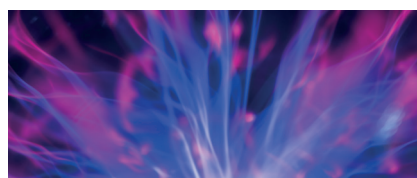

Mathematics and computation

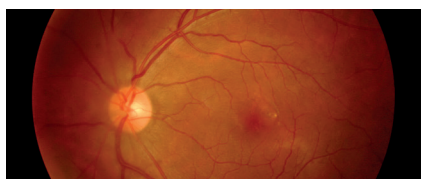

Optics and photonics

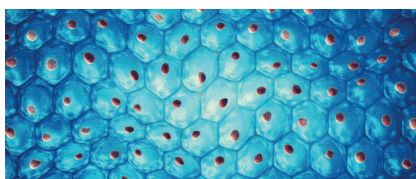

Particle and nuclear physics

Plasmas

Medical physics and biophysics

Biomedical engineering

Quantum science

Providing impact, recognition and value

Whatever research your faculty members and students are looking for, we have the content and publishing credentials they need.

132

Nobel laureates and Fields Medal winners have published with us.

3,600

Articles published in 2024 featured in the top 10% of cited research for the physical sciences.

100%

of article publication charge income collected from retracted papers was donated to Research4Life in 2024.

10,000

IOP Publishing works with more than 10,000 libraries worldwide.

87 million

Total number of downloads to articles on IOPscience in 2024, up by 12% compared to 2023.

Partnering for success

- American Astronomical Society
- Astro Ltd
- Astronomical Society of the Pacific
- Bureau International des Poids et Mesures
- Chinese Astronomical Society and National Astronomical Observatories
- Chinese Institute of Electronics and the Institute of Semiconductors
- Chinese Physical Society
- Deutsche Physikalische Gesellschaft
- European Physical Society
- Hefei Institutes of Physical Science, Chinese Academy of Sciences (CASHIPS)
- Institute of Machinery Manufacturing Technology, China Academy of Engineering Physics
- Institute of Physics and Engineering in Medicine
- Institute of Systems Engineering, China Academy of Engineering Physics
- International Atomic Energy Agency
- International School for Advanced Studies (SISSA)
- London Mathematical Society
- Royal Swedish Academy of Sciences
- Society for Radiological Protection
- Songshan Lake Materials Laboratory
- The Electrochemical Society
- The Japan Society of Applied Physics
- The Japan Society of Fluid Mechanics
- Vietnam Academy of Science and Technology
